Mr. Ullman & Co., Post Office Arcade, Geo. H. Leland & Co., Post Office Arcade, Doran & Merriam, 176 1/2 Clay street.

To our Correspondents.

We beg to remind our correspondents throughout the State and elsewhere of four conditions, which, being complied with, will admit their letters in this journal, and in making this known, we can assure them they are essentially requisite in letter writing for a newspaper.

First—But one side of the paper used must be written upon, so as to make it convenient for the compositor to handle.

Second—The writing must be in a plain, legible hand.

Third—The letters must be brief, without slighting the topics discussed.

Fourth—An entire freedom from personality and slang.

We have now a valuable corps of regular correspondents, and as it is our earnest desire to give all their communications a place in our columns, they must bear in mind the above conditions. We look upon every fireman, however, as a correspondent of this paper.

In our next issue we shall reply to a libellous communication written by an abusive pup signed "No Stander," which appeared in the columns of a daily paper of this city on Monday morning last. Our object in delaying a reply is, that we may possibly obtain the name of the author in the meantime. Should our suspicions prove correct as to the author, we shall not further notice him, for we have the word of two respectable men in this city that Judge Baker had stated to them, that the person alluded to had cried before him, and entrusted that he should not be prosecuted for a crime which would have consigned him to the State Prison. With a felon we of course could have no controversy, and we therefore delay a reply until we make a further effort to discover the writer.

DEATH.—Mr. E. Beck, a member of Lafayette Hook and Ladder Co. No. 2 of this city, died at Stockton on Wednesday last. A delegation from the Stockton Fire Department comprised of Messrs. Fletcher Andrews of Weber Engine Co. No. 1, Ex-Chief Engineer Rider of Eureka Engine Co. No. 2, Capt. Van Burgen of San Joaquin Engine Co. No. 3, and E. B. Whitman of Hook and Ladder Co. No. 1, were appointed by the Fire Department of Stockton, to convey the remains to this city. The body was brought down this morning, and is now at the Truck House of Lafayette No. 2.

STOCKTON.—Chief Engineer Whitney, has been authorized by the Chief Engineer of Stockton, to procure a bell for the Department of that city. The purchase was made from Messrs. Cross & Co., and the bell sent up yesterday.

BENEFITS.—The benefits of Young America Engine No. 13, and Tiger No. 14, have resulted quite successfully. Our citizens have responded to every call from the department for aid, thus showing their opinion of the injustice of the Consolidation Bill towards our organization.

ACKNOWLEDGMENTS.—We are under great obligations to Mr. Jacob Ezekiel, the present efficient Secretary of the Board of Delegates, for favors extended this office.

AN UNMATED FAIR.—The suit for libel against the Town Talk in which Tong Achick is plaintiff. After John gets through with the lawyer, he will be an exemplification of a broken China-man. Don't you see?

TO WHOM IT MAY CONCERN.—To all those who may be so unfortunate as to become involved in legal difficulties, we can confidently recommend our friend Judge Hanrahan, of the First District Court. The judge is we think, the only lawyer at present on the justice's bench, and has had considerable experience in California Courts, as well as those at home. Besides he is a "Vamp," like ourselves, and we want to see him go ahead.

BEAUTIFUL BELT.—The Marysville Express says: One of the young gentlemen in our office—Sylvester H. Jenner, a member of the "Warrens"—showed us a most beautiful belt, which was presented to him by A. C. Wigham, also a member. The belt is of patent leather, black, with the name "WARREN" in large silver letters, beautifully wrought on the back, and a large "W" of the same metal on the front. The four is the number of the company. The letters and figures are the workmanship of our friend Billy Fonda, and reflect much credit on his skill. The Warrens now number fifty-three members, so we are informed, and are in a most flourishing condition.

Mr. Jenner was formerly a compositor in this office, and was for a long time a member of the Hose Co. attached to Empire No. 1.—[Ed.]

MAJOR BURKE.—This excellent company had a dress drill on the 22nd, making a fine and soldierly appearance. They were accompanied by a detachment of the Young America Guards, Capt. Edgar, who made their first parade on this occasion.

WARREN.—We are indebted to Mr. D. W. Channery, for the latest number of Porter's Spirit of the Times.

Also to Mr. J. W. Sullivan and J. J. Ficks for newspaper favors.

The Committee on Rules beg leave to report that, upon examination of the books and papers of this Department, they find a register without a single name inserted or written on the same. They find, also, also, documents and communications, which, if properly compiled by a competent person, might enable this Department to have a complete register. They find, also, that the same might be completed in about three months, and that a fair compensation would be \$200. We recommend that a competent person be employed to perform this task, and prefer the Board should select such person—there being so many applicants. We further recommend that Mr. Boruck be permitted to assist such person employed.

Respectfully submitted,

Editorial Correspondence.

SACRAMENTO, Feb. 27th, 1857.

Much as I regret to announce the fact, I am compelled to say that the San Francisco delegation in both branches of the Legislature is opposed to the bill adopted by the Board of Delegates, on the 24th of January, passing as a separate measure.

While the members approve of the provisions of the bill, they think the Fire Department could work along just as smoothly if they were incorporated in the Consolidation Bill—the author of which was one Horace Hawes. It is argued that the Fire Department is a portion of the city government, which, being consolidated, brings it within the direct control of the Board of Supervisors, and God knows no greater calamity could befall the organization than to have such a body as the present Board to control them. If the delegation should conclude to incorporate the Board of Delegates' bill in the Consolidation Bill, the right would be reserved to the Board of Delegates to have the full control of the internal affairs of the Department.

The delegation has agreed to the amendment of Mr. Hawes—giving the Department \$27,000 for its support instead of \$8,000 per annum; and it is said if a separate bill is passed, and \$27,000 nominally placed to the credit of the Department Fund, there will never be a dollar in it to draw upon, whereas, if the organization comes in under the provisions of the Consolidation Bill, the amount prescribed upon which drafts for the expenses of the Department may be drawn, viz: \$27,000 will be in the general fund, and can always be obtained.

The committee appointed by the Board of Delegates should come immediately to this place, and endeavor, by their presence, to secure the passage of the law. There is a majority in both houses in its favor, and upon a proper representation being made, its adoption could be obtained. The law is suitable in every way to the wants of the Department, and if put to vote would receive a majority of the active working firemen on the roll of the organization. There should be no delay in this business—promptness and dispatch will attain the result wished for, and neither money nor time should prevent a committee from attending here.

The resolutions in regard to the location of the Neptune's have been rescinded, and they will be located in a good and desirable neighborhood.

Mr. C. Pope had a benefit on Wednesday evening, which, owing to the rainy weather and the Governor's leave, was not very well attended. At the conclusion of the performance, Mr. Pope was called before the curtain, when he made the following remarks, which have been warmly applauded by the press here:

LADIES AND GENTLEMEN: Although I shall remain with you a few evenings longer, yet on this occasion of my farewell benefit, I shall say a few words. I suppose you are all aware that I came to this country under a professional engagement with Mrs. Hayne. She has everywhere been received with the greatest courtesy and consideration, and in no place in California has she been more heartily greeted than in Sacramento. (Applause.) Every where we say "None know but to love her, none name her but to praise." (Great applause.) For myself, I return my sincere thanks to you for the favors you have showered upon me. (Applause.) Especially to those gentlemen who have generously come forward and, with their names, publicly testified their regard, I return my most sincere thanks, and I assure them I will not forget them. Soon, very soon, the broad waters of the Pacific will separate me from you, and I will not return to you, but be assured, I shall often turn back with pleasure, and think of the many acts of kindness I have received at your hands.

It is confidently stated the Legislature will not adjourn until some time in May. There is unfinished business now to keep the two houses busy until that time, independent of the impeachment cases which, it is thought, will consume very nearly a month. The papers in Dr. Bates' case were served by A. Hunter, Esq., Sergeant-at-Arms of the Senate, on Monday, and the trial is set down for Thursday, March 5th. Speaking of Aleck Hunter, he reminds me to say he is Chief Engineer of the Placerville Fire Department, and one of the most whole-souled and generous men I ever met with.

Letter from Marysville.

MARYSVILLE, Feb. 21, 1857.

FRIEND BORUCK: Under the impression that a knowledge of what is going on in Marysville would be acceptable both to you and many of your readers, I proceed to give you a few items, which I hope may not be inappropriate or unwelcome. Then to commence:

Upon application of Warren Engine Company, residing in this city, a special meeting of the Board of Delegates of the Marysville Fire Department was called, to inquire into the expediency of admitting the said company into the Fire Department of this city.

The order by the President, considerable sharp shooting was indulged in among the members in regard to the probability of the movement, when the matter was referred to a committee of three, to report at the next meeting of the Board.

The committee reported that they were of the opinion that the Board of Delegates had no power to act in regard to the admission of the above named company.

However, they thought proper, however (and a motion was made to that effect), that the Common Council should be requested by the Department to admit the Warren, whenever they shall have procured a good and suitable engine and apparatus, to be approved by the Chief Engineer. Some little discussion being had, the matter was finally referred to the Council for their consideration.

Now, Mr. Editor, I wish to make some remarks in regard to this matter. For one, as a member of the Fire Department of this city, and as an opponent of the admission of this company, I judge that the number of engines already in the Department is greater than there is any necessity for consequently, it would be a useless expenditure of money, without any good whatever according to the law, and I hope, Mr. Editor, you will not criticize too severely this hasty and crude epistle. Wishing to express my disapprobation of the course that will probably be pursued in regard to the admission of the Warren into the Marysville Fire Department, I know of no better mode than (with your permission) through the columns of the Fireman's Journal.

The Warren intend to give an entertainment in the shape of a ball on the 22nd—the proceeds of which will be given to the city for the purchase of an engine. The ball is expected to be a grand affair, and, as I intend to be there, I will give you all the particulars of it in my next letter—this should prove acceptable.

FIREMAN'S FUNERAL.—A young man named John Lavry, aged about 22 years, formerly of New York, and a member of Knickerbocker Engine Company No. 6, died on Saturday night from an affection of the heart, after an illness of about one month. He was buried on Monday morning at the City Cemetery, being the first interment within the enclosure.

At the hour mentioned, the funeral procession, headed by a band of music, proceeded from the house of Engine No. 6, in Second street, the coffin, enveloped in the American ensign, was accompanied with the cap and belt of the deceased, being placed upon the engine, which was drawn by the members of the company in uniform. Delegations from the several fire companies were observed to be in attendance, some in uniform and others in civilian dress, with distinctive badges on their lapels. The line of march proceeded through 8th street to K street, thence to the Catholic church, where the usual services were performed by the Rev. Father Quin, after which the funeral proceeded through K street to 10th street, and thence to the cemetery. At the R street levee the remains were transferred from the engine to a hearse. On the return, the engine was manned by the members of Engine Co. No. 8 and 4, and by 10 men brought back to the city. The funeral would have been much larger could due notice have been given throughout the fire department. Circumstances, however, prevented a more general notification.

Sac. Union, Feb. 23.

THE WARREN'S BALL.

The Ball given by Warren Engine Company No. 4, on Monday evening, was very largely attended. We have never seen so many people assembled together in Marysville, nor do we remember ever to have seen so many beauty at one time on the floor of that ball room. The appearance of a few of the ladies present was truly
